Other relevant experiences:

During my study I had part-time jobs.

My greatest passion is singing and dancing. Beside BNI and AIA I also worked the evenings as a singer in an international restaurant "Selatan Indah". I worked here for more than 2 years, from October 1997 until December 1999. I sang several different styles like: pop, jazz, rock, Indonesian, Chinese mandarin, etc. What I learned the most here was to control myself and stay friendly to customers. From 1995 until 1998 I also was a traditional dancer at weddings together with a group of other dancers.

Besides singing and dancing I also have another passion, cooking. This is because of my father who owned a restaurant. He taught me to cook the traditional Indonesian cuisine. I cook for my family and friends on a daily basis.
